**Letter of Commitment
Cultural Programing**

The programing from the Cultural Department is based on solidifying a foundation for participants.

We are here to learn in a ts'ekwun way; students who commit to classes are expected to participate at class and at functions during and after class lessons. The expectations of our elders are that we all finish what we start; we go to events to sit and listen. We learn how to go and help our family; this can be demonstrated in many ways as students have learned. We accept the teachings offered, and we practice it. We have to follow the teachings provided because we don't want to make mistakes.

Students will be expected to demonstrate their understanding of Culture and Language.

STUDENT COMMITMENT:

By signing this letter of commitment, I agree to attend the Cultural programing offered to me, and I understand that by signing I agree to my commitment of our cultural ways.
