

February Home Repairs

After the hustle and bustle that accompanies the holiday season, February provides a chance to regroup and reorganize.

Here is a list to help you get started:

- ✓ Take down, clean, and store ornaments, decorations, and house lights.
- ✓ De-clutter Christmas stuff. Give away or toss old, broken or unused decorations, lights...
- ✓ De-clutter a closet, pick just one and empty it. Sort by things to save, donate, sell or toss.
- ✓ Take the garbage out and set donations aside the same day. Clean the closet thoroughly.
- ✓ Organize the stuff that belongs in that closet and put it back.
- ✓ Tighten screws on all door handles and hinges (including kitchen cabinets).
- ✓ Make a list of broken light switch cover plates, electric outlet plates and replace.
- ✓ Lubricate (oil) all door hinges and door locks (lubricate keys and insert into locks).
- ✓ Check the caulking around sinks, tubs, showers and re-do.
- ✓ Clean the inside of all windows, window tracks and sills (remove decorations and fake snow).
